

## Circular 2025/05 — Mandatory Regulatory Reporting Framework — COREP/FINREP Alignment

|                    |                                |                    |                 |
|--------------------|--------------------------------|--------------------|-----------------|
| Reference:         | FRA/CIR/2025/005               | Issue Date:        | 10 January 2025 |
| Effective Date:    | 01 July 2025                   | Response Deadline: | 30 April 2025   |
| Issuing Authority: | Financial Regulatory Authority | Classification:    | MANDATORY       |

### 1. Overview

The Authority is mandating full alignment with the European Banking Authority's COREP and FINREP reporting standards for all Category 1 and Category 2 regulated institutions. This circular establishes binding obligations for quarterly and annual regulatory reporting submissions. All firms must comply with the revised reporting taxonomy by 1 July 2025.

### 2. Reporting Obligations

With effect from 1 July 2025, all regulated firms must submit: (a) Common Reporting (COREP) returns on own funds, credit risk, market risk and operational risk on a quarterly basis; (b) Financial Reporting (FINREP) returns including balance sheet, income statement and off-balance sheet items on a semi-annual basis; (c) Large Exposure reports for any counterparty exposure exceeding 10% of eligible capital, monthly. All returns must be submitted via the Authority's XBRL reporting portal within 30 calendar days of the reporting period end.

### 3. Data Quality Requirements

Firms must establish a Data Quality Framework covering data lineage, reconciliation controls and senior management sign-off for all regulatory returns. The Chief Financial Officer or equivalent must certify each submission. Firms must retain supporting workings for all reported figures for a minimum of 5 years and make them available to the Authority on request.

### 4. Penalties

Late submission of regulatory returns will attract an automatic penalty of USD 10,000 per business day. Material errors identified post-submission must be corrected and resubmitted within 5 business days of discovery. Repeated failures to comply with reporting obligations will be treated as a serious regulatory breach and may result in enhanced supervision.

### 5. Implementation Support

The Authority will conduct three XBRL reporting workshops in February, March and April 2025. Firms must register their reporting contacts via the supervisory portal by 28 February 2025. A dry-run submission exercise will be conducted in May 2025 to validate system readiness.
