

Circular C-05 — Mandatory ESG and Climate Risk Disclosure Requirements

Reference:	FRA/C/2025/005	Issue Date:	28 Feb 2025
Effective Date:	01 Jan 2026	Response Deadline:	30 Sep 2025
Issuing Authority:	Financial Regulatory Authority	Classification:	MANDATORY

1. Scope

All listed regulated entities and those with total assets exceeding USD 5 billion must publish annual ESG disclosures aligned with the IFRS Sustainability Disclosure Standards (ISSB). Disclosures must cover climate-related financial risks (IFRS S2) from the reporting year 2025.

2. Required Disclosures

Mandatory disclosures include: Scope 1, 2 and 3 greenhouse gas emissions; climate scenario analysis under 1.5°C and 3°C pathways; transition plan with net-zero targets; physical and transition risk exposures; and governance arrangements for climate risk oversight.

3. Assurance

ESG disclosures must be subject to limited assurance by an accredited external auditor for the first reporting year, transitioning to reasonable assurance by 2027. Assurance reports must be published alongside disclosures.

4. Action Required

Submit a Climate Risk Readiness Assessment to the Authority by 30 Sep 2025 confirming data availability, scenario modelling capability and assurance arrangements. Training on ISSB standards must be completed by all finance and risk staff by 30 Jun 2025.
